We also provide following security solutions for heavy industries, borders and defence projects.

R-Defence Series

Fiber Optic Fence

QRT (Quick Response Team)

ICCC (Integrated Command Control Centre)

Certifications & Approvals

R-Lite Series

Made in India. Made for World.

Security On Your Fingertips

Especially Designed For
 Homes | Offices | Group Housing | Factories | Farm Houses

- Perimeter Wall Scaling
- CCTV Access Control Integrated
- Unauthorized Terrace Access
- Breach Through Balcony
- Security Compromise Through Staircase

R-Cloud

Smart Security. Anytime. Anywhere.

R-CLOUD enables real-time monitoring, instant alerts, and remote access through mobile and web applications. With multi-location management and advanced reporting, it provides complete security control anytime, anywhere.

KEY HIGHLIGHTS

- Simple and easy to use:** Manage security with ease.
- Access from anywhere:** Stay connected anytime, anywhere.
- No server required:** No server or dedicated pc needed.
- Cloud-based access:** Securely access your system via cloud.
- Fast and Hassle Free:** Quick, convenient security management.
- Stay connected:** Get alerts and monitor remotely.

Smart Fence

Remcon's Smart Fence is an inhouse developed advanced Smart Perimeter Alert and Response System designed to transform metal fence/ concertina coils into intelligent intrusion detection barriers, works on the pressure technology.

Remcon has developed many customizable variants including the following:

Smart Concertina

Decorative Fence

Taut Wire

FRP Fence

KEY HIGHLIGHTS

- Zero false alarms and IP 67 rated sensors
- Easy integrations and customizable
- Supports IP, RS-485, SIM and MODBUS
- Solar powered green security solution
- Adjustable sensor sensitivity
- 10-15 Years operational life

Microwave Sensor

Designed for reliable perimeter and security applications, the sensor accurately detects movement while maintaining stable performance in varying weather and environmental conditions. It integrates seamlessly with Remcon alarm controllers to provide real-time intrusion detection and alarm activation.

KEY HIGHLIGHTS

- Power and alarm LED indicators for easy status monitoring
- Adjustable detection range
- Seamless integration with alarm controllers
- Indoor up to 6mtr; Outdoor up to 40mtr

IP Based Security Light

The Remcon Security Lighting System is an energy-efficient low voltage perimeter lighting solution for both indoor and outdoor operations. The system offers quick installation, minimal maintenance, weather-resistant performance, and seamless integration with perimeter intrusion detection and command G control systems.

KEY HIGHLIGHTS

Monitoring and control via mobile application

IP 67 Rated

Operating temperature (-40°C To 80°C)

In built microwave motion sensor

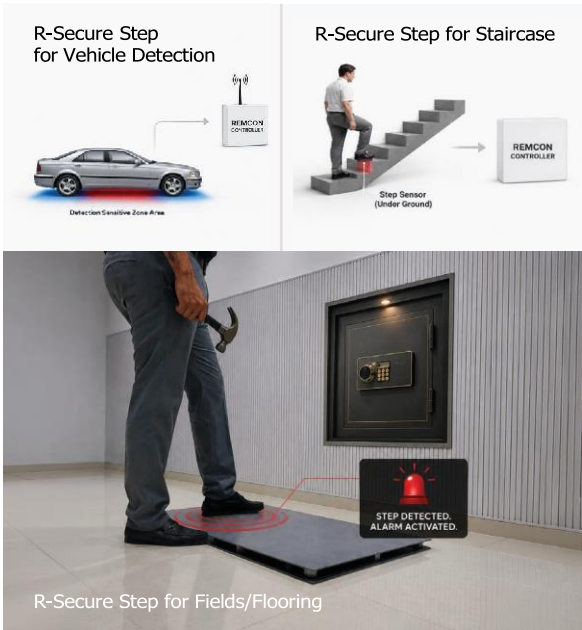

Integrated with PIDS and other 3rd party systems

Automated Scheduling & Dimming: Cost saving by programmable controls of automatic operation and precise brightness adjustments.

Dynamic RGB Scenario Control: Features 256 color selections and over 20 customizable lighting presets.

Our Security Light Products

For Indoor G Outdoor Purposes

Underground Sensor

R-Secure Step is designed to detect footsteps and vehicle movement with 360-degree circular detection. Detecting pressure associated with walking or driving across the protected area and triggering a real time alarm.

KEY HIGHLIGHTS

- Plug and play installation
- Adjustable sensor sensitivity
- Compatible with CCTV and alarm systems
- Standalone/ Software based control and monitoring
- Event classification for steps and vehicles
- Mobile notification via R-cloud application
- 360-degree circular detection pattern

Power Fence

The Remcon Power Fence is a reliable, standalone perimeter intrusion detection system for small to medium-sized sites. It offers simple, cost-effective deployment with effective intrusion detection and deterrence for residential, commercial, and light industrial applications.

KEY HIGHLIGHTS

- Solar charging capability
- Single/ Dual zone configuration
- IP 54 Rated protection
- Cost effective and low maintenance
- Centralized monitoring and control

Protection from Animal Menace
